With over 30 years' experience in the education of Beauty and Holistic therapists, CIBTAC is a leading awarding body with internationally recognised qualifications. With over 200 Centres in 22 countries, we pride ourselves on training therapists to the highest standards in the skills that the industry demands. CIBTAC qualifications are highly regarded and recognised by industry professionals and employers globally and we're the only examination board that develops its own courses to ensure our qualified therapists are fully salon-ready.

We couldn't offer these qualifications without our network of excellent Centres as you are central to the quality education of therapists worldwide. Each Centre has a responsibility to its Candidates to ensure that it is offering the highest standards and CIBTAC will guide and support you through establishing your qualification portfolio. You'll benefit from a named Examination Coordinator who will manage your exam schedules, paperwork and Examiner visits. The Examiner, in turn, will help you to deliver results-focused CIBTAC accredited courses, allowing you to focus on teaching - and will also come out to your Centre to independently examine your Candidates.

All of this, combined with helpful marketing and promotion advice, will help your Centre to attract more Candidates.

To find out how you can become a CIBTAC accredited Centre, call or email our Education Officer. We look forward to hearing from you.

Kindest regards,

Kim Ford

About us

The Confederation of International Beauty Therapy & Cosmetology (CIBTAC) is a leading awarding body, proud of our international recognition for producing Graduates of the highest calibre. Established in 1977 as the education arm of BABTAC (the British Association of Beauty Therapy and Cosmetology), we are a not-for-profit organisation, continually reinvesting our income for the benefit of our accredited Centres and their Candidates. Our desire is both to improve the quality of Graduates entering the sector, as well as to standardise the education within the industry. Since our establishment, we have grown to include a wide portfolio of courses, with spa, wellbeing, diet and nutrition, sports therapy and other complementary and holistic therapy qualifications.

Each of our courses is developed through close relationships with Government Agencies and global employers, ensuring they are tailored to the needs of the international industry. Many of our Centres have been with CIBTAC for over 30 years and their qualifying Graduates are sought after by first-rate employers because they are both educated to a high level and have practical experience. Challenging, but highly attainable, our courses are designed to support Candidates through their training, enabling them to fulfil their goals and progress in their careers.

We pride ourselves on a personalised service, so whether it's a quick question or an entirely new qualification you'd like to offer, your Examination Coordinator will manage this with you via email or phone, every step of the way.

“The quality of CIBTAC’s qualifications, combined with the dedicated service from our Examination Coordinator, means we can offer our Candidates qualifications that will take them into the world of work, in a way that is efficient for us to manage.

The quality of CIBTAC means we attract a lot of Candidates which keeps our profits healthy”
